

Miele. Touch the Future.

Our new Generation 6000 range of built in appliances feature the most advanced technology ever presented on appliances, our trademark touch screen control system, M Touch.

Since 1899, we have proudly set the benchmark in appliance innovation, with unparalleled quality, timeless durability and stunning performance at the forefront of every design.

Never has this been so evident as with our Generation 6000 range, a generation of appliances built especially for you and designed to suit your lifestyle. Generation 6000 appliances are available in Brilliant White, Clean Steel and Obsidian Black designed for any taste.

Miele. For everything you really love.
